headline news component, Ajax Dashboard, 232, 242–245
hiding
JavaScript field/function names (obfuscation), 145–146
JavaScript properties, 153–158
history of browsers, 2–3
history of Web applications, 1–2
evolution of Web applications, 3–16
 Ajax, 13–16
applets, 4–5
CGI (Common Gateway Interface), 3
DHTML (dynamic HTML), 10
Flash, 9–10
JavaScript, 5–6
JSPs (JavaServer Pages), 7–8
servlets, 6–7
XML (eXtensible Markup Language) derivatives, 10–11
HTML (HyperText Markup Language), 2
cross-browser JavaScript. See JavaScript, cross-browser JavaScript
DHTML (dynamic HTML), 10
innerHTML property, 39–42
validating code with Firefox extensions, 135–139
Checky, 138–139
HTML Validator, 136–137
HTML/JavaScript Cruncher–Compressor, 145–146
HTML::Template, 132
HTTP status codes (XMLHttpRequest status property), 26
HttpUnit, 192
hyperlinks, unlinkable pages, 223
HyperText Markup Language. See HTML

JavaScript, 5–6
browser incompatibilities, 49
checking syntax with JSLint, 143–145
compression, 145–146
cross-browser JavaScript, 251–256
adding event handlers to input elements, 254
appending rows to tables, 251–252
creating input elements, 253–254
creating radio buttons, 255
setting element class attributes, 253
setting element styles, 252–253
debugging. See debugging JavaScript
describe function, 152
documenting code with JsDoc, 131–135
Flash/JavaScript integration kit, 259
history, 148
inheritance, 154–158
obfuscation, 145–146
private properties, 153–158
prototype property, 148–152
reading XML documents using W3C DOM-compliant JavaScript, 43–48
stepping through JavaScript code, Venkman, 205–206
testing
 FitNesse, 192
HttpUnit, 192
JsUnit. See JsUnit
JUnit, 163–164
JUnit vs. JsUnit, 164
jWebUnit, 192
Selenium, 192
test-driven development (TDD), 161–163
JavaScript Console (Firefox), 197–198
JavaScript Object information type (nodes), 142–143
JavaScript Object Notation. See JSON
JavaScript Remote Scripting (JSRS), 12
JavaServer Pages (JSPs), 7–8
JSDoc, 131–135
JSLint, 143–145
JSON (JavaScript Object Notation), 67–73
JSON/JSON–RPC, 261
JSPs (JavaServer Pages), 7–8
JSRS (JavaScript Remote Scripting), 12, 29
JUnit, 161, 164
downloading, 164
help resources, 191
query strings, 184–188
running tests, 179–184
query strings, 184–188
setUp() tearDown(), 172
setUpPage(), 172, 175
test suites, 177

IFRAMES, remote scripting, 29–31
inheritance (JavaScript), 154–158
innerHTML property, 39–42
input
adding event handlers to input elements, 254
creating input elements, 253–254
creating radio buttons, 255
Internet Explorer
cross-browser JavaScript. See JavaScript, cross-browser JavaScript
security, 35
iTunes Web site, 91

Java applets, 4–5
Java BluePrints, 262
